INDIAN SCHOOL DARSAIT
DEPARTMENT OF SOCIAL SCIENCE

Subject: Social Science	**Topic:** Major domains of the earth	**Date of worksheet:** 11-11-18
Resource Person: Johncy Antony		**Date** :
Name of the Student :	**Class &Division :**	**Roll Number :**

I	**Fill in the blanks.**	
1	The narrow zone where we find land, water, and air together is known as the _____	1
2	The level of the sea water remains the _____everywhere.	1
3	Elevation of land is measured from the level of the sea, which is taken as _____	1
4	The domain of the earth consisting of solid rocks is _____	1
5	The combined landmass of Europe and Asia is called _____	1
6	Europe is surrounded by water bodies on _____ sides.	1
7	The continent of _____ lies to the west of Asia.	1
8	The South Pole lies almost at the centre of the continent of _____	1
9	The earth is called a _____ planet	1
10	The_____ Ocean is busiest ocean.	1
11	The coastline of the Atlantic Ocean is highly_____	1
12	The Indian Ocean is _____ in shape.	1
13	Antarctica is surrounded by the_____ ocean.	1
14	The _____ pole is surrounded by the Arctic Ocean.	1
15	The _____strait joins the Arctic Ocean to the Pacific Ocean.	1
16	The air moves from high pressure area to _____ pressure.	1

17	Moving air is known as _____.	1
18	The three chief movements of ocean waters are the, _____, _____, and the _____.	1
19	The organisms in the _____ are divided into the plant kingdom and the animal kingdom.	1
20	The gaseous layer that surrounds the earth is known as the _____	1
II	**What do the following Greek words mean?**	
(a)	Lithos _____	1
(b)	Atmos _____	1
(c)	Hudor _____	1
(d)	Bios _____	1
III	**Answer the following.**	
(a)	Why is a large amount of soil being removed from the mountains? _____ _____	1
(b)	Which three lines of latitudes pass through Africa? _____ _____	1
(c)	Why do the mountaineers carry oxygen cylinders with them? _____ _____	1
(d)	What happened to Andaman and Nicobar Islands during the 2004 tsunami? _____ _____	1

(e)	How is North America linked to South America?		1
	_____		
	_____		
(f)	What are the two main divisions of the Earth's surface?		1
	_____		
	_____		
(g)	What is global warming?		1
	_____		
	_____		
IV	**Define the four major domains of the earth with the given terms.**		4

Terms	Definition
Lithosphere	
Hydrosphere	
Atmosphere	
Biosphere	

Learn it

The atmosphere composed of several gases
Nitrogen (78%) is essential for the growth of living organisms.
Oxygen (21%) is essential for our life
Other gases like Carbon dioxide comprise 1% is essential for plants. It absorbs heat radiated by the earth.

On the outline map of the world, mark all continents and oceans.
