# INDIAN SCHOOL DARSAIT <br> DEPARTMENT OF MATHEMATICS 

Subject : MATHEMATICS
Topic: CIRCLES
Date of Worksheet : 24/10/2019
Worksheet no:10
Resource Person:Mrs.Anu Likson

Name of the Student $\qquad$ Class \& Division: $\qquad$ Roll Number : $\qquad$

## Section A -[Chapter based questions]

1. If $\mathrm{AB}, \mathrm{AC}$ and PQ are tangents in the given figure and $\mathrm{AB}=5 \mathrm{~cm}$, find the perimeter of $\triangle \mathrm{APQ}$.

2. If $\triangle \mathrm{ABC}$ is isosceles with $\mathrm{AB}=\mathrm{AC}$ and $\mathrm{C}(\mathrm{O}, \mathrm{r})$ is the incircle of the $\triangle \mathrm{ABC}$ touching BC at L , prove that L bisects BC .
3. In the figure, AB is a chord of length 16 cm of a circle of radius 10 cm . The tangents at $A$ and $B$ intersect at a point $P$. Find the length of PA.

4. In the figure, there are two concentric circles with centre O of radii 5 cm and 3 cm .

From an external point P , tangents PA and PB are drawn to these circles. If $\mathrm{AP}=12 \mathrm{~cm}$, find the length of BP

5. Two tangents PA and PB are drawn to a circle with centre O such that
$\angle \mathrm{APB}=120^{\circ}$. Prove that $\mathrm{OP}=2 \mathrm{AP}$.
6. In figure PA and PB are tangents drawn from an external point P to a circle with

A

7. In figure, a circle touches all the four sides of a quadrilateral ABCD with $\mathrm{AB}=6$ $\mathrm{cm}, B C=7 \mathrm{~cm}$ and $C D=4 \mathrm{~cm}$. Find $A D$.

8. In the given figure $\mathrm{OQ}: \mathrm{PQ}=3: 4$ and perimeter of $\triangle \mathrm{POQ}=60 \mathrm{~cm}$. Find the length of $\mathrm{PQ}, \mathrm{QR}$ and OP .

9. In the given figure, a circle is inscribed in $P Q R$ with $P Q=10 \mathrm{~cm}, Q R=8 \mathrm{~cm}$ and $P R=12 \mathrm{~cm}$. Find the lengths of $\mathrm{QM}, \mathrm{RN}$ and PL .
